Attention: **Mr. Jose Valeriano B. Zuno III**
OIC-Head, Disclosure Department

Gentlemen:

We refer to the Philippine Stock Exchange's ("PSE") request for clarification of the news article entitled "DENR limits areas for mining activities" posted in philSTAR.com on April 25, 2018. The article reported in part that:

"MANILA, Philippines — The Department of Environment and Natural Resources (DENR) is limiting the areas to be mined and developed as the government moves toward prioritizing environmental rehabilitation of the country's mineral operations.

Based on its latest department administrative order, which is up for Environment Secretary Roy Cimatu's signature, DENR is limiting production areas from 50 to 162 hectares depending on the mine's annual production volumes.

Nickel mines that are producing up to one million metric tons annually will be allowed to work on 50 hectares and can reach up to 100 hectares for those with output of more than nine million MT. Mine sites with processing plants can develop up to 162 hectares.

....

The mining firms have also expressed concern over the schedule of the implementation of order. The DENR wants it implemented in the next six months.

...."

While the proposed administrative order limits the maximum disturbed area for extraction of ore and requires temporary revegetation or progressive rehabilitation, we believe that the same will not have significant impact on the operations of our subsidiary, Marcventures

Mining and Development Corp. (MMDC). Upon assessment, MMDC has the ability to comply with the proposed administrative order since it may conduct temporary revegetation or progressive rehabilitation on certain areas in order to maintain or open other mining areas. We note further that there are exceptions provided in the administrative order which will permit operations beyond the prescribed limitations under justifiable grounds.

We hope we have sufficiently explained our position of the matter.

Very truly yours,

Diane Madejyn Ching
Assistant Corporate Secretary
